- *Firmware Based LINUX OS...Anti-Virus and Stable*
- *Power Off Data Protection...Live Web Based Viewing*
- *Robust, DoD Implemented SHA256 Encrypted File Security*
- *Standard Video Format...No Special Software or CODECS*
- *Files are Compatible with most Case Management Software*

KEY FEATURES...

Latest Camera Technology – *Legaltek* integrates the latest IP/HD-SDI camera technology in a variety of disguise and non-disguise camera enclosures, ensuring unsurpassed image quality in any interview environment. Up to four cameras may be recorded full screen or in a number of user defined picture-in-picture and picture-by-picture configurations.

Simple Button Control – *LXO* is designed for ease-of-use and features one-click operation to start and stop recording locally. The intuitive control interface, wireless keyboard touchpad and high-resolution display make the entry of case information, event tagging and system operation almost second nature. The file database is searchable by date or by case information.

Local/Network File Capture – The *LXO* can selectively record files to the internal 500GB HDD, dual optical DVD-ROM drives or to a designated folder on the network. Finalized DVDs are typically available in <1 minute. Files may also be immediately exported to removable solid-state memory or automatically uploaded to a network location for archival storage.

Live Local Viewing/Network Streaming – Administrators can easily define profiles for local recording and live streaming via a web-based application. Interviews can be viewed using any device on the network that supports a standard web browsing application.

Standard Video Format – *LXO* records video in the standard .MP4 format allowing files to be immediately exported via USB or DVD. Recordings can be played by the viewer's choice of application without any special software or codecs. Secure, recorded files are compatible with most agencies existing enterprise case management software.

Our technical group has provided purpose-engineered solutions for Child Advocacy Centers, law enforcement professionals and government entities for over 25 years.

- No License Fees
- Unlimited Users
- No Charge Software Upgrades
- One Year Factory Warranty
